

-Gibraltar -Canary Islands -Gibraltar

Warmed by the Gulf Stream and cooled by Atlantic breezes, the Canary Islands - Gran Canaria, Tenerife, Lanzarote, La Palma, Fuerteventura, La Gomera and El Hierro - have a near-perfect climate all year round. Whether or not they are the classical Fortunate Isles, they are an ideal destination to escape from the typical British summer.

An ideal opportunity to build miles and gain experience of long distance passage making. This leg is suitable for those wanting to achieve their Coastal Skipper (Tidal) Practical Certificate or equivalent experience. We anticipate a non stop passage to the Canary Islands to take a maximum of 6 days, allowing time before our return journey to explore inland on one of the islands. All meals are included except for evening meals once we arrive in the Canary Islands. A potentially challenging experience, against the prevailing winds and current make the satisfaction of achievement all the greater. Singles and couples welcome, no experience necessary – but a sense of adventure vital!

Details:

No prior experience necessary.

1. For those new to sailing it will be possible to complete your RYA Competent Crew.
2. If you have more experience it will be possible to complete not only the RYA Coastal Skipper Course, but also log a large proportion of the miles and some of the skippered passages required prior to entering the Yachtmaster Examination.
3. If you have completed the Shorebased component, the trip will also fulfill the requirements for the Ocean Endorsement to your Yachtmaster. Contact us for more details.

Cost: From £899.00

Duration: 10th November to the 25th November 2007

Distance: Gibraltar – Canary Islands – Gibraltar about 1400 nm's
